

# Griffith Memorials

**The  
Classical** MEMORIAL  
COLLECTION

The memorial you choose will forever honour the life of someone you love. Most of us at sometime in our life are faced with the painful task of choosing a suitable memorial for a loved one.

In this classical brochure you will find memorials that have been designed by our artists that are unique in their carvings. Trying to decide on the type of memorial you require can be a difficult and emotional decision.

There is no limit to the type of monument that can be produced and all the memorials can be adjusted to suit a particular requirement. Any design can often be incorporated into another and as memorial manufacturers we can design any memorial that's not shown in this brochure.

The careful training of our staff ensures that they are available to provide you with the kind of help and assistance you may need. It is important to bear in mind that cemetery and churchyards authorities nearly always have regulations as to the types of memorials they will allow; however, we are aware of these and can advise you accordingly.

The layout of the memorial along with the inscriptions will always be available and we guarantee all our memorials are of excellent workmanship and sound materials.

Want an alternative to a concrete slab that will not crack or deteriorate after a few years due to weather conditions and is not man made? Then make your headstone and base safer and look more attractive by fixing it on a solid GRANITE FOUNDATION SLAB. Slabs are available in various sizes, please ask your memorial consultant for more details.

Tudor Rose cutout

CMC 200

Heart cutout

Please Note:  
Some cemetery authorities now have concrete rafts in place and council cemetery rules and regulations will have an overall height restriction. Our sales consultant will be able to advise you on this front.
